

It's really cold in Miami tonight  
Out on the block, turn out your mind  
Take your number heading inside  
Shots on the left, lean to the right  
4 AM, it's a murder for hire  
Keep your head straight, build an empire  
I feel a burn in the air tonight  
Take up the anthem put out your right sight now

Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
On, and on, and on

Nothing wrong but we can't pretend  
Take off your dress, lie to your friends  
It's a murder, I'm on the edge  
Hairline trigger, cut to the end  
Paranoid and I'm holding my breath  
Got a straight flush, close to your chest now  
Such a mess, but I'm feeling alive  
Burn down your house, put out your right sight now

Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
On, and on, and on

Do you like it  
Do you like it yet  
Do you like it yet  
Do you like it yet

Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
On, and on, and on

Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
Do you like it yet  
Do you love me now  
On, and on, and on
