

# Come Alive

Pendulum

Slave to a vision  
Stranger from the outside  
Eyes against your prism  
Caught you in the headlights

Head against a wire  
Helping me get closer  
Set yourself on fire  
And show me when it's over

'Cause I come alive when you're alone  
You've got nothing to fear  
Restless eyes of your shadow  
This time you'll know I'm here

Hail to the seeker  
Waiting on the breakthrough  
Ears for every hour  
This is what it's come to

'Cause I come alive when you're alone  
You've got nothing to fear  
Restless eyes of your shadow  
This time you'll know I'm here

'Cause I come alive when you're alone  
You've got nothing to fear  
Restless eyes of your shadow  
This time you'll know I'm here
