

# Mercy Killing

Pendulum

Time is running out, time is running out  
Turn this ship around, turn this ship around  
It's too late to let yourself go  
One last chance to make it alone

You don't wanna start no conversation with me brother  
I ain't like no other, I be going harder  
Y'all be out of luck and always hating for the drama  
All I do is prosper, kill 'em, call it karma  
Tryna test my skill, see the shit I built  
Drowning you in the field, living how I feel, yeah, yeah  
This shit get real, uh, building for the thrill, uh  
They all call me crazy 'cause I say just what I feel, yeah, yeah

They say the sun's inside you  
Underneath the pain you've given  
No wasted time, no virtue  
Another day of mercy killing

Time is running out, time is running out  
Turn this ship around, turn this ship around  
It's too late to let yourself go  
One last chance to make it alone

I ain't tryna gas it up, I don't need attention  
Right hand gonna make you jaw swing like a pendulum  
Fuck you up like fentanyl, fuck it, we offending them  
We gon' up the dose and leave them choking on the medicine  
Cold to the core I'm never hesitant  
Madness on my face when I'm genuine  
Way too lit to ever get your messages  
Even the score leave you left for dead

They say the sun's inside you  
Underneath the pain you've given  
No wasted time, no virtue  
Another day of mercy killing

Time is running out, time is running out  
Turn this ship around, turn this ship around  
It's too late to let yourself go  
One last chance to make it alone

Time is running out, time is running out  
Turn this ship around, turn this ship around  
It's too late to let yourself go  
One last chance to make it alone
