

# Nothing For Free

Pendulum

We got the symptoms of a cold war  
All of our troubles are make-believe  
We're dying on our own soil  
Calling your friends up to the teeth

There's nothing for you, nothing for me  
Nothing for sale, nothing for free  
You wanna take my life and fade away

It doesn't matter

We've got a battle of the ages  
Calling the cavalry through your phone  
An army of the shameless  
Walking the line, tipping the throne

There'll be nothing for you, nothing for me  
Nothing to fear, nothing to see  
You wanna take my life and fade away

It doesn't matter

If you're gonna take me away tonight  
I'll return as a soldier  
Make my way to the waterline  
Find a bridge to get over  
(Hold the line, don't forget)  
(Taking arms is taking heads)  
Hold the line, don't forget  
Taking arms is taking heads

Hold the line, don't forget  
Taking arms is taking heads  
Hold the line, don't forget  
Taking arms is taking heads  
Taking arms is taking heads  
Taking arms is taking heads
