

# The Endless Gaze

Pendulum

The pain can restrict your sight  
You can be hurt in your life  
Betrayed by a friend  
And now nobody's loyal  
You can't even see the people that want to love you  
Because the pain has blinded you to their very existence  
You are trapped in an isolated narrative and your pain is restricting your vision  
But your pain can also produce clarity  
Like I say, if it's forgiveness, forgive  
It's not easy to forgive  
It's really hard to forgive  
But sometimes that's what we have to do  
Don't let it take root  
Don't let it become bitterness  
Don't let it become anger
