

You Should Know

Penelope Scott

It's not a very big deal
I just thought Heaven would glow
I lost my life to get here
And I'm so fucking bored

I don't wanna die this way
And you should know
I'm looking at your eyes and
You super fucking don't

I wanna steal a car and
Crash it right into a board
Fuck someone's professor
Even if it's not my own

'Cause I don't wanna go like this
So goddamn bored
I don't wanna live this way
And you should know

Looking at the sky
Can't believe it's real
It's so fucking synthetic
I don't know how to feel

Settle on nothing
I'm gonna burn it down
Rip it like a carton
And toss it to the ground

'Cause I don't wanna go this way
And you should know
I'm looking at your eyes and
God you just don't

Walk into the ocean
And swim away
Trade a boring life for
One real bad day
