

V.I.P.

Penetration

You're the face, the face on the screen
The person in the public eye
You're the one everybody recognizes
Whatever you do, they're watchin you

Wherever you go, you're on show
You're the star, a celebrity
You have tea with her majesty
Photos taken for the magazines

Whatever you say makes headlines
Whatever you do, they're watchin you
Wherever you go, you're on show
V. I.P

I'd hate to be a V.I.P
They're always on the go

They can't do what they wanna
It has me hot
I'd hate to be a V.I.P

They're always on the go.

They can't do what they wanna
It makes me hot
It makes me hot
Makes me hot
See that smile captured on the face
The person in the public's view
The person is someone
The person is no one
Whatever you do, they're watchin you

Wherever you go, you're on show
V.I.P
I'd hate to be a V.I.P
They're always on the go

They can't do what they wanna
It has me hot
I'd hate to be a V.I.P
They're always on the go.
They can't do what they wanna
It makes me hot
It makes me hot
Makes me hot
I don't want to be V.I.P
