PENICILLIN

Feel the vibe, Sound of life in the air
Breaking through that wide and endless sky of Asia
Feel the beat the wind is burning wild
Time machine let's go we can fly away
Freezing face I touch their hands feel only coldness
Vacant eyes feeling only confusion.
Killing time tripping out in delusion
Living only in his smoky little lies
Just break those chains, put your finger high.
It's time to say up with the past
Gotta open your eyes, open your eyes, open your eyes,
Gotta open your eyes
Can you hear, Sound of live in the air
Breaking throught that wide and endless sky of Asia
We don't need electric heart, break it all, free the world,
Let's stand up for love revolution
Feel the heat the wind is burning wild
Time machine let's go we can fly away
Feel the beat, feel the speed, you can see,
All your dreams, just touch away
Ride on the brand new sky

I touch my hand feel only coldness
Forgotten fears slowly creeping through darkness
Once again sweet pain runs through my body
Suddenly I don't know if I'm dead or alive
Losing control, falling deeper, depression is tearing my heart
Oh don't you cry, don't you cry, don't you cry, don't you cry
Feel The vibe, Sound of my heart beat
Stronger faster than the lightening flashing up above
Don't you know, everyday, of my life
What I want is just your love
I'm here to snipe your heart
Flame of love it's glowing endlessly it will never die just glowing
Stronger day by day
Don't look back, look ahead, feel the beat
Feel the speed together lets
Ride on the brand new sky

Just fly away, into the blue sky
Free yourself from spider web and jump high to the sky
Feek the vibe, Sound of life in the air
Breaking through that wide and endless sky of Asia
Feel the heat the wind is burning wild
Time machine let's go we can fly away
Feel the vibe just listen carefully
Focus your mind let your heart lead the way
Don't retreat, just believe, feel the beat, feel the speed
Find sound of life
Hello to brand new day
