

Breakdown

Penny & Sparrow

If I have a breakdown, while I'm gone
If I have a breakdown, while I'm gone
Will you still love me?
I might you know? But hey I still got to go
What if I cry every show
And it's hey look out below?

If I have a breakdown, while I'm gone
If I have a breakdown, I hope that you still love me
I hope that you still love me

If I have a breakdown, while I'm gone
If I have a breakdown, while I'm gone
Will you still love me?

I'm on my knees
Panic makes it hard to breathe
And if you're still into me
Then this juice is worth the squeeze
I can be a rube-Goldberg machine
I can overcomplicate a thing
I can make the dumb shit interesting
All it's gonna take is all your patience
I can be a lot

I hope, I hope that you still love me
I hope, I hope that you still love me
I hope, I hope that you still love me
I hope, I hope that you still love me
