

You said, "Let me love you  
Forward & backward  
What makes you tick?"  
I said, "Never odd or even  
Read it like a palindrome  
Clever but I'm not romantic"  
You said, "Fine", stayed all night  
Slept late, took a thousand  
Headache, like a mountain  
Ibuprofen

Where'd we go? High walking on a tight rope  
When we're talking I release serotonin  
As above, so below  
When I get full-grown  
Separate me from my phone  
Lemme know you, but off-screen  
Anything un-alone, but  
I would climb to you  
Falling is harder done from the roof  
The roof, ooh, ooh, ooh

Frank on repeat  
I could make a key (I could make a key)  
You already stay at my place (My place)  
You paying rent (Oh, oh, oh)  
Is cutting into our wine budget  
Slim other days  
Heard you in the hall  
Hum along to Rose Marie  
Babe, we oughta be  
Celebrated always cult classically
