

Hannah

Penny & Sparrow

One day, in your overalls
Belated free-agent
You came into my life and wandered off
You came and wandered off
Mm-mm, mm-mm

Lightly, on my shoulder crawls
A ladybug waiting
To wade into the night and wander off
To wade and wander off
Mm-mm, mm-mm

Fly on, Hannah, float on
Wade into the night
God knows that I can take it
Good love moves on, maybe we can, too
Mm-mm, mm-mm

When I'm waking up
For a while
Won't I reach out?
Shouldn't I?
I'm gonna be alright

Fly on, Hannah, float on
Wade into the night
God knows that I can take it
Good love moves on, maybe we can, too
Mm-mm, mm-mm

Heavy, like a boulder falls
Irradiant, maybe
You faded into light, meandered off
You fade & wander off
Mm-mm, mm-mm
