

I Fall To Pieces

Penny & Sparrow

Well I, fall to pieces
Each time I see you with him
Well I, fall to pieces
How can I be just your friend?

You want me to act like we've never kissed
You want me to forget that we've never met
And I've tried and I've tried
But I haven't yet
See you walk by and I fall to pieces

Well I, yes I fall, to pieces
Each time someone speaks your name
Yes I, I fall, to pieces
Time only adds to the flame

You want me, find someone else to love
Someone who love me too
The way you used to do

And I've tried and I've tried with somebody new
You walk by and I fall to pieces
And I've tried, yes I've tried with somebody new
But you walk by and I fall to pieces
