

Long Gone

Penny & Sparrow

When do you want my love?
Do you wanna do-over this life?
Baby, good times Lazy Susan everyone
Knowing it don't make it hurt no less
Do you really not know I hold you close?
I hope your troubles get gone
Make it long gone
Long gone

With your body stop-motioning
Do you ever get lost on your own?
Go test your might easy metal
See if you don't end up un-broke
Yes I hope, even if your worry burns your home
Your regret is all gone
Make it long gone
Long gone

May I put on a butcher's apron?
May I carve upon your loud self-doubt?
With the weight of all that gone
I bet you feel light
So light
So very much like it was
When do you want my love?
Is your fear gone?

Make it long gone
Make it long gone
Let 'em all go in a fur coat
Let 'em all take off
Make it long gone
Long gone
