

## Neat Christmas

Penny & Sparrow

I know you're here to pick up the dog  
But maybe stay a bit more  
This year was long and rough on us all  
We both deserve a stiff pour

Can I convince you to cancel the splash  
That water will wear down the proof  
Let's you and me get drunk off our ass  
And listen for hooves on the roof

Let's have a neat Christmas, like we used to  
All three of us, just like it was  
Let's have a neat Christmas, don't you want to?  
I've changed a ton you'll see  
Let's have a neat Christmas

I understand, no I'm totally great, you're seeing someone and that's fine  
Hey will you pass over your glass, I'm pouring the rest into mine  
No! I'm not angry, my throat's really dry, the roads will be shitty ya'll should go  
You've got the dog and that new friend me? I've got booze and the snow

Sounds like a neat Christmas on my lonesome,  
On my top shelf with nobody else  
Sounds like a neat Christmas here without you  
Wait, that sounds kinda nice.

I could have it all, I could have it all to myself
