

Blessed be this album  
Blessed be this outcome  
Blessed be the pillow, muffling sound

What if roommates hear us?  
Blessed be the fearless  
Let 'em bear witness

Blessed be the ceiling  
We can see right now  
Lights out  
Blessed be the decals  
They're glow-in-the-dark-star-green  
Blessed be the light beams  
Blessed be this lime dream  
Untitled on vinyl

I'll read your tarot, you read my sign  
We can recommend honey wherever we find it  
We find it  
We become airborne  
And we float around at night  
Way above the tree line  
You're mine

Blessed is she who slept in (ahhhh-ahh)  
Blessed is a boy who shrugs  
Blessed are those who begin days  
Tasting what was once unheard of

Then comes everything after  
Blessed growing up  
There have been others  
Blessed are those and blessed is moving on  
Blessed is how does it feel?  
Playing it now is surreal  
Blessing the new and the old me  
And blessed be the beauty in loving both

You read my tarot, I'll read your sign  
We can recommend honey wherever we find it  
We find it  
We become airborne  
And we float around at night  
Way above the tree line  
You're mine

Our duvet is on us, don't it just weigh  
Eighteen pounds  
We've done nothing wrong, love  
It was rough, but we're here now
