

We've Got Something

Penny & Sparrow

And if it just so happens
I don't wake up again
I think I'll be content to go
It does my heart good to know
The last time that I spent
Is in a place that feels like home
We've got something
Something's not so wrong
So let's be foolish;
Let's love, let's belong
I've got nothing to offer; no security
But there's this I give to you:
I know my days are numbered;
Nothing's promised to me
I want to spend the rest with you
We've got something
Something's not so wrong
So let's be foolish;
Let's love, let's belong
