

Closer

Pennywise

No answers just questions
this life defies expression
no freedom no feelings
I'm just a human non being
nothing left to chance
nothing left to try
just when I get closer
then it's my time to die
just when you feel alive
just when I get closer
I can feel it slipping away
just when I feel better that's when
everything starts to change
no chance to be no chance to see
what's left to say?
just when I get closer
that's when it all slips away
this problem I'm feeling
logic defies all reason
can't stop it this pressure
gets worse just when I feel better
just when I think that
things can change
these answers drift and slip away
just one more chance
to release for one more day
these questions drift and slip away
