

Locked In

Pennywise

The solution's how
You can do anything you want to now
You're free if you wanna be
By losing everything that you can see

You're locked in today
By letting life get in the way
Fear has slowed your pace
Stability is in its place
Did you give up your freedom
So you could maintain what you have gained?
You're locked in today
You're locked in today

You're locked in again
A vicious circle you maintain
The score is on your mind
Two steps ahead and three behind
You're free if you wanna be
By losing everything that you can see

You're locked in today
By letting life get in the way

Fear has slowed your pace
Stability is in its place
Did you give up your freedom
So you could maintain what you have gained?
You're locked in today
You're locked in today

You're locked in today
By letting life get in the way
Fear has slowed your pace
Stability is in its place
Did you give up your freedom
So you could maintain what you have gained
You're locked in today
You're locked in today

You're locked in
You're locked in
Locked in today
