I was just about to call you

But my phone always rings when I'm busy

I'm not avoiding you

You always tell me to just try

But I keep giving excuses, there's nothing to gain

Do you know? Don't you know?

Why don't you know? What you want?

Bae, I can't today

But how about a movie tomorrow? yeah

I looked up some pretty cafes nearby, don't be mad

Baby we can do it all

If you're upset, tell me

I'm sorry, whatever I did

I can do better

We can be better

Go easy on me, just for this month

Though it's a problem that I'm getting more and more shameless

Don't walk away

We could be the same

Closing my eyes

Girl I can think a better lie

Did you call? I just saw

Sorry, I was talking to some close friends

Maybe cuz it's raining, I feel down

I can't seem to work today

How about you? Did you eat?

I really don't wanna write lyrics today

I don't wanna do anything

That doesn't mean I don't wanna see you

It's just today's not that great

Yeah I'm sick of all my day and night
You know my work
Girl you can wait a day alright
Baby, I promise, I'll keep tomorrow empty
Too much traffic on Yanghwa Bridge right now so it's hard to go to you
I have to go, text me before you sleep

If you're upset, tell me
I'm sorry, whatever I did
I can do better
We can be better

Go easy on me, just for this week
Though it's a problem that I'm getting more and more shameless

I've been going crazy
Everything I made up
Being busy is always a sin
Even though I can't sleep
Please don't do that morning calls
I just wanna take a break
I really guess that she don't mind
Don't mind

If you're upset, tell me
I'm sorry, whatever I did
I can do better
We can be better

Go easy on me, just for today
(You don't get it)
My lies are getting more and more shameless
(You don't get it know)
