It's like not being able to see because it's so dusty
Gotta gotta go
The rough and colorless air that surrounds me
As if I'm lost, my heart stopped
But you shined into it with your bright eyes
With your special smile
The race has started, the winner gets her
You can try but you already lost
I can run behind but I'll still win
I'm the guy who flies above the guy who runs

Imma getcha through the run
Imma getcha through the run
Start your engines, in her heart vroom
On the track, groove vroom zoom yeah

The coldly turned off engine, turn me up
Shake me up,
Wake me up from sleep, wake me up
My heart's in danger,
Start the engine before it turns off
Can you hear this sound toward you?

I feel like engine
Like engine
Hear the sound
Like engine
Like engine

Alright, I feel good right now
Four wheel super engine start
I'll take you for a ride every night
See me looking tired, what are we doing?

Feels like I've been born
Inside a world that is you
There's only one person to start my engine
It's the master key that you have

The coldly turned off engine, turn me up
Shake me up,
Wake me up from sleep, wake me up
My heart's in danger,
Start the engine before it turns off
Can you hear this sound toward you?

I feel like engine
Like engine
Hear the sound
Like engine

Be assured, it's not dangerous
We're like hot wind
It's getting hotter
Your love that stops you from breathing
Along with the rising temperature
Your body goes up too so so there's no speed limit
I don't know, the mood is perfect
The game has already started, trust me

The coldly turned off engine, turn me up up
(I feel like engine)
Yeah I'm ready
(I feel like engine)
Get behind me baby

My sleeping heart
Only you can wake me up
The sound of me calling you

I feel like engine
Like engine
Hear the sound
Like engine
