The stars are spilling across the sky tonight
I'm thinking of you more today
What do I do? Even if this wasn't in the plan
It has to be today, girl
Your face looks like you're not ready
I'm aiming for you, who is defenseless
Yeah uh

Cupid baby, I'll be the arrow
Please be my target, yeah
I don't care if that makes you cringe

Tonight, we'll be humming
You and me, together, lucky lucky
I found somethin' somethin' common now
I wanna share everything with you
I'm singing a song for you
I'm lucky lucky love for you

Look at the sky, it's so nice
The blue sky is turning dark
Let's set the mood and lock lips
Then my mood will pierce the roof

The sky is falling when it's time to say goodbye
I'm shy but let's meet again in our dreams
I know, you miss me too, I'll hold onto you now
So never run away from me

As I see your red face
I knew I was successful
Yeah uh

Cupid baby, I'll be the arrow
Please be my target, yeah
No matter what anyone says

Tonight, we'll be humming
You and me, together, lucky lucky
I found somethin' somethin' common now
I wanna share everything with you
I'm singing a song for you
I'm lucky lucky love for you

To me, you're L.U.C.K.Y

I always want to seem
Handsome to you
But it's not easy and I get nervous
Every time you sigh

I'm a bit scared
What if we grow farther apart?
I worried about that all night
But I have to tell you today
I can't wait any longer, girl

Tonight, we'll be humming
You and me, together, lucky lucky
I found somethin' somethin' common now
I wanna share everything with you
I'm singing a song for you
I'm lucky lucky love for you

Tonight, we'll be humming
You and me, together, lucky lucky
Tonight we'll be
I'm singing a song for you
I'm lucky lucky love for you
