The moment we met eyes

I thought time had stopped
The moment our lips met
My heart was melting
You make me go close up
This is your super power
You drive me crazy each time
You make my heart boom

Sometimes, I listen to Jay-Z's music
Because you like it
Did you switch perfumes? It smells good
Cause I bought it for you

Your mojo turns a normal day
Into a Hollywood movie
My mood is always up
I don't need any more more
Flexin, even if I don't hold it
Your body line is already ready
If you say go, I'll speed, I'm ready

Each day is so
Spectacular, spectacular
It's really spectacular
You're so beautiful
So spectacular, spectacular
You push and push, hold on

Say yeah yeah I don't know
Wondering what approach I should take
Say yeah yeah I don't know
What chord should I play?

I slapped my knee and thought
I should've realized
I can't escape
From your fatal charms
How far am I?

You like the idols on TV
I'm an idol too
You changed your hair? It's pretty
Who are you meeting today?

Even if I don't say it, please feel me
I want to call you again for no reason
I've fallen for you
I tried to pretend I'm not
But why are you so pretty?
Like the first feeling, I'm still the same

Each day is so
Spectacular, spectacular
It's really spectacular
You're so beautiful
So spectacular, spectacular
You push and push, hold on

Say yeah yeah I don't know
Wondering what approach I should take
Say yeah yeah I don't know
What chord should I play?

Everything about you is perfect, long list of specs
You force other women to respect you
That's a real fact
Besides you, everyone else seems the same
Sometimes, I confuse this for a dream
If it is, don't wake me up
I'm flying on a cloud
Into your arms

The moment we met eyes
I thought time had stopped
The moment our lips met
My heart was melting
It's spectacular

Each day is so
Spectacular, spectacular
It's really spectacular
You're so beautiful
So spectacular, spectacular
You push and push, hold on

Say yeah yeah I don't know
Wondering what approach I should take
Say yeah yeah I don't know
What chord should I play?
