

## Last Stand

Pentakill

Oh, oh...

Dark clouds move closer  
Flush with a deepest red  
Beneath it we look on  
When they part comes the hatred they bring

Lost in the dark, we've come so far  
Another step to rid the pain  
Go and be countered through your last stand  
'Cause only nightmares break their faith

So stand upon these fallen lands  
And follow where the fire spreads, yeah  
Until the end, we will remain  
And we'll hold on until our last breath

We'll make our final stand

Lost in the dark, we've come so far  
Another step to rid the pain  
Go and be countered through your last stand  
'Cause only nightmares break their faith

So stand upon these fallen lands  
And follow where the fire spreads, yeah  
Until the end, we will remain  
And we'll hold on until our last breath

Break their faith  
Break their faith

Break their faith  
So stand upon these fallen lands  
And follow where the fire spreads, yeah  
Until the end, we will remain  
And we'll hold on until our last breath

Oh...
