

We're not just another vacant race  
To think we wouldn't stand in their way  
Oh, face 'em up, oh, face 'em up (Hey, hey, hey)  
For we are true, for we are true to our name (Yeah)

Strike once, and steer the course  
Strike twice, redeem this world

We'll take up arms, we'll make amends here  
Where they bring death we must remain  
Defiant  
Relive the pain and turn it on them  
'Cause we must live up to our name

To those who're intent on our end  
We refuse to let you have the final say

Strike once, and stem the flow  
Strike twice, redeem this world

We'll take up arms, we'll make amends here  
Where they bring death we must remain  
Defiant  
Relive the pain and turn it on them  
Cause we must live up to our name

Strike once we can't let go  
Strike twice redeem this world

We'll take up arms, we'll make amends here  
Where they bring death we must remain  
Defiant  
Relive the pain and turn it on them  
Cause we must live up to our name
