Cologne

Pentatonix

When I walk into the club and my feet start to rub
Everybody thinks I'm weird but the truth is I'm not
When I'm in the studio and the 808 pops
Everybody thinks I'm weird but the truth is I'm not

Gonna let the music take control of me and let the bass rush through me
808 pace to make, I love the state I'm in, it's mind blowing
All the feelings that I'm feeling, loving everyone it's amazing
I want to stop until I drop I know I'm on top and now it's time to bop
(Let me see you get low)
Everybody thinks I'm weird but the truth is I'm not

Whatever happens tonight stays in the crowd
Whatever happens stays between you and I
Whatever happens tonight stays in the crowd
Whatever happens stays between you and I

Your cologne and the bass is making my heart beat insane
Your cologne and the bass is making my heart beat insane
Your cologne and the bass is making my heart beat insane
Your cologne and the bass is making my heart beat insane

It's amazing when we party all night for the cause
When I watch you get down I forget all your flaws
If you fly into my life it's so nice, it's full-on
But the music takes us deep 'til the breaking of dawn

Whatever happens tonight stays in the crowd
Whatever happens stays between you and I
Whatever happens tonight stays in the crowd
Whatever happens stays between you and I

Your cologne and the bass is making my heart beat insane
Your cologne and the bass is making my heart beat insane
Your cologne and the bass is making my heart beat insane
Your cologne and the bass is making my heart beat insane

Whatever happens tonight-
(Your cologne and the bass is-)
To-tonight
Whatever happens stays between you and I-I
What ever happens to night (Whatever happens)
(You cologne and the bass is-)
To-tonight
Whatever happens stays between you and I

Whatever happens tonight stays in the crowd
Whatever happens stays between you and I
Whatever happens tonight stays in the crowd
Whatever happens stays between you and I

Everybody thinks I'm weird but the truth is I'm not
