

# Exit Signs

Pentatonix

It always  
Starts with a shape  
Sideways  
A sudden escape  
Sooner or later, you'll find the fault in my design  
'Cause it's in your nature to try all the way to goodbye  
But why?

You point to all the exit signs  
So when you want out  
You get out  
But maybe you should stay this time  
And see it out  
For always

I want you to stay  
I want you to say  
You want me to stay  
I want you to say

I want you to stay  
I want you to say  
You want me to stay  
I want you to say  
For always

Starcrossed or too drunk  
We are face up  
Nothing phased us  
Concrete or white doves  
Are we made up?  
Are we faithless?

Sooner or later, you'll find the fault in my design  
That's fine  
'Cause it's in your nature to try all the way to goodbye  
But why?

You point to all the exit signs  
So when you want out  
You get out  
But maybe you should stay this time  
And see it out  
For always

I want you to stay  
I want you to say  
You want me to stay  
I want you to say

I want you to stay  
I want you to say  
You want me to stay  
I want you to say  
For always

Ah, ah

It always  
Starts with a shape

You point to all the exit signs  
So you want out  
You get out  
But maybe you should stay this time  
And see it out  
For always

I want you to stay  
I want you to say  
You want me to stay  
I want you to say

I want you to stay  
I want you to say  
You want me to stay  
I want you to say  
For always

Ah, ah
