

I Rise

Pentatonix

Oooo

Blue jeans in a ripped T-shirt
Blood stains in the 10-seater

Beat down cause you know we are
Coming around again (coming around again) yeah
Hanging on a moment by the skin of our teeth
Bitin' on the bullet till we come up to breathe
Watch out cause you might see us, can't beat us, glorious

Ooo

They call us soldiers on the battlefield
And we rise up cause we're on our heels
We go (left right)
Long nights (left right)
Hold tight (left right)
Watch us as we march into the sunlight

Soldiers on the battlefield
And our futures still a mystery
And we're standing through the long nights
Then we march into the sunlight

Ahhhh ahhh ahhhh
Sing it with me I rise

Blue purple with a shade of scarlet
Running fast to better days I'm on it
Shatter every obstacle that gets in our way
They won't defeat us, glorious

Oooo, glorious, ooo

They call us soldiers on a battlefield
And we rise up cause we're on our heels
We go (left right)
Long nights (left right)
Hold tight (left right)
Watch us as we march into the sunlight

Soldiers on the battlefield
And our futures still a mystery
And we're standing through the long nights
Then we march into the sunlight

Ahhhh ahhh ahhhh
Sing it with me I rise

(Left) Out here in the dirt and rain
(Right) Back here at the start again
(Left) To climb till I'm
(Right) in line
(Left, right, left, right) yeahhhh

We march!

They call us soldiers on a battlefield

And we rise up cause we're on our heels
We go (left right)
Long nights (left right)
Hold tight (left right)
Watch us as we march into the sunlight

Soldiers on the battlefield
And our futures still a mystery
And we're standing through the long nights
Then we march into the sunlight

Ahhhh ahhh ahhhh
Sing it with me, I rise

(We march into the sunlight, rise, we march into the sunlight, rise, we rise
)
