

Prayers For This World

Pentatonix

These are hard times in these times
Feels like the world's 'bout to capsize
Feels like it might take a miracle to make it out alive

The clock is ticking, what do we do?
Is someone listening? Help us through

Prayers for this world
Bring peace to its doors
Bring hope to its shores
We've got to change it
Prayers for this world
Bring wind to its sails
It's gone off the rails
We've got to save it
Raise up our hands
And rise together
It's got to be now, it's now or never
Prayers for this world, we've got to save us all

Oh, oh oh, pray for this world
Oh, oh oh, prayers for this world

Feels like we're trapped in a landslide
Can't even look at the headlights
'Cause when you look at what's going on
You just wanna run and hide

Only light can fight the darkness
Only love can end the hate
We've gotta get us some love and light
So love can light the way

The clock is ticking
Time's running out
Is someone listening?
Help us out

Prayers for this world
Bring peace to its doors
Bring hope to its shores
We've got to change it
Prayers for this world
Bring wind to its sails
It's gone off the rails
We've got to save it
Raise up our hands
And rise together
It's got to be now, it's now or never
Prayers for this world, we've got to save us all

I'm gonna take a chance
I'm gonna make a change
Give all the love I can
'Cause that's the only way for us, way for us
I'm gonna pray for us, pray for us

Prayers for this world
Bring peace to its doors
Bring hope to its shores
We've got to change it
Prayers for this world
Bring wind to its sails
It's gone off the rails
We've got to save it
Raise up our hands
And rise together
It's got to be now, it's now or never
Prayers for this world, we've got to save us all

Wooh ohhhh
Wooh ohhhh, pray for this world
Wooh ohhhh
Wooh ohhhh, prayers for this world
