

Inferno

Penumbra

How do feelings arise?
I lost my values
And (the) hate is corrupting my mind
There is nothing you can do
I feel empty
I want to flee the divine

How can I can I resist the evil's call?
Broken heart, broken bones, so many falls
Make me take a decried way, what does it matter?
Am I a coward, coward? Look at your fears
Fall and rise

You don't know what it's like
To live with your enemy
You don't know what it's like
I'm into inner spaces
Love is your alibi
To lose it all
My tears are running dry
Keep your hate for yourself

I want to sell my soul to the devil
To belong to his court far from this earth
Where peacocks reign so perfect I am a stranger here
Talk about a world a world? It's just a bin

No mercy for me
I search for the beast and a seer
Times are for obscurity
It will give a true sense

Leave the grace of God and his believers
Silence is their only word
They hate everything from you
That's why you must be there

Now I am free from lies
I guess it's a key
To prove that I am truly resigned
I'm ready to undress
And to regress
The limbo will be my light

Leave the grace of God and of his angels
Your sins will be their savior
Until they get bored of you

Tears are falling away
Tears are falling away
Away from a misery

This world makes me sick so arrogant
And simpletons took the floor, who wants to hear?

No mercy for me
I want a new existence

Times are for obscurity
It will give a true sense

Leave the grace of God and of his angels
Your sins will be their savior
Until they get bored of you

Come to Hell
Demons will dance with you
You will keep your mind until the end
This is the paradox of Hell
That's why you must be there

Inferno
From your shadow comes a newborn miracle
From the shallows, life is but a delusion

(Abjure your religion
And serve your new master
Forget your illusions
Feed on your own anger)

Tell me what to expect again
It's time to pledge allegiance, to wear the chains
To recant my religion, what I am
This slavery will be my revenge
(Crawl, Fall)
