At the Carnaval  
We do it Island style

Picture the people smiling back at you  
On the island it's a perfect view  
Weather's nice for the Carnaval  
We celebrating clothing optional  
Bring on the night and let the riddim take over  
The energy is rising and no one left sober  
No more sitting around  
The pool with nothing to do you  
The streets are coming alive  
When I

When I saw this girl's electricity  
Tonight, dancing at the Carnaval  
She moved like nothing that I've seen  
Riding on the riddim tonight  
And I saw this girl's electricity  
Dancing at the Carnaval  
She's brighter than the lightning  
Lighting up the sky tonight

We do it Island style  
Lighting up the sky tonight  
At the Carnaval  
We do it Island style  
Lighting up the sky tonight

Walking closer  
Not knowing a thing to say  
As I get closer  
Stop these fears from getting in my way  
Bring me the light  
And let the feeling take over  
The mood is elevating  
And the night isn't over  
No more playing around  
I need to be here with you  
The streets are fully alive  
When I

When I saw this girl's electricity  
Tonight, dancing at the Carnaval  
She moved like nothing that I've seen  
Riding on the riddim tonight  
And I saw this girl's electricity  
Dancing at the Carnaval  
She's brighter than the lightning  
Lighting up the sky tonight
