

# Goddaughter

Pepper

I feel so alive  
With you by my side  
Your little toes in the sand  
She wants some shave ice  
I'll get some shave ice  
Down on the shore  
It's you I adore  
Just my angel and her dad

Oh my young girl, sing to me sweet  
Say that you don't need no one but me

Oh my young girl  
Sing to me sweetly

Don't you ever let me go now baby, no I won't  
Oh my young girl  
Sing to me sweetly  
You're my angel, pretty baby, oh my lord

My dreams come true  
When I carry you  
And sing you a lullaby  
Under the starlight  
Well I know you'll sleep tight  
Just look above  
And you'll see my love  
Even when you close your eyes

Oh my young girl, sing to me sweet  
Say that you don't need no one but me

Oh my young girl  
Sing to me sweetly  
Never let me go

Sweet Lovely daughter  
Never let me go  
You got me under your spell  
But I know  
I'll make you laugh  
Break you out of your shell

Break you out, lift you up, put you on my shoulder  
I'm loving you at this age, please don't get no older  
Jumping around, we have fun splashing water  
I'm feeling so good with my sweet lovely daughter  
Oh baby girl sweet Lovely daughter

Oh my young girl  
Sweet little baby thing, little little diamond ring  
Sing to me sweetly  
I wanna give you everything  
Never let me go  
Sweet Lovely daughter  
Never let me go  
Sweet Lovely daughter

Your love, your love  
Sing to me sweetly
