

My Holiday

Pepper

Departing on a trip for holiday
A red eye flight with a Cabernet
Just a backpack and my headphones
And a taste for a place that's far from home

Gonna take a little time
See things in slow mo
Gonna look around to find
Learn things I don't know
Just to breathe and to realize
Before I take a free throw
Gonna go to a paradise
Somewhere the trade winds blow

Holiday
It's time to mix up some flavor
Holiday
Nothing is strange to a stranger
Holiday
These girls are beautiful danger
Holiday
I'm not going to miss my behavior
Cause it's my holiday

Sun kissed girls playing on the sand
And a flashy drink spilling on my hand

Holiday
It's time to mix up some flavor
My holiday
Nothing is strange to a stranger
Holiday
These girls are beautiful danger
My holiday
I'm not going to miss my behavior
Cause it's my holiday

Gonna take a little time
See things in slow Mo
Gonna look around to find
Learn things I don't know
Just to breathe and to realize
Before I take a free throw
Gonna go to paradise
Should've done this long ago

It's time to mix up some flavor
Nothing is strange to a stranger
Holiday
These girls are beautiful danger
My holiday
I'm not going to miss my behavior
Cause it's my holiday
