

# Stay High

Pepper

Yeah yeah yeah yeah yeah you  
You'll do anything that they say (they say)  
Now isn't it true  
That you'll do anything to get paid or get laid  
We do what we got to do  
Just to survive  
But if you're looking for something new  
We've got just the something to ease your mind

Cuz if you don't love reggae then you don't love me  
You got no roots then you're a crooked tree  
Might as well be locked up, penitentiary  
Only way to catch the sun that's coming up  
Is riding on those good vibes  
So go ahead and go do you  
But I'll be getting high  
On those good vibes  
Yeah high on those good vibes

Well look who broke through  
Look who made it out the rat race (rat race)  
Now you're feeling brand new  
Like you're living in a space age head space  
We do what we want to do  
With the rest of our lives  
Rolling up something just for you  
And it might be just the something  
To ease your mind

Cuz if you don't love reggae then you don't love me  
You got no roots then you're a crooked tree  
Might as well be locked up, penitentiary  
Only way to catch the sun that's coming up  
Is riding on those good vibes  
So go ahead and go do you  
But I'll be getting high

Why don't you just slow yourself down  
Cool your heels and lift yourself right off the ground  
Relax your mind and let your hair down  
Roll one up with your friends and pass it around  
That's what the musics about  
Soak up the sun and the sound

Cuz if you don't love reggae then you don't love me  
You got no roots then you're a crooked tree  
Might as well be locked up, penitentiary  
Only way to catch the sun that's coming up is riding on those

Good vibes  
Keep on bringing em back  
Yeah we Stay High  
Ain't nothing wrong with that

Ain't nothing wrong with that
