Sweet Leef

Pepper

Burn it slow
Burn it slow

Late night and baby cries
But everything is gonna be all right
Brake lights, gonna miss my flight
But I'm still coming home to you tonight

Well your long days over so come on over here tonight
We can roll one over let that sweet leaf ease your mind

Burn it slow
Burn it slow

They say great minds yeah they think alike
As she leans in and asks me for a light
And those green eyes, they burn so bright
I'll be damned if I've ever felt so right

Well your long days over so come on over here tonight
We can roll one over let that sweet leef ease your mind

It's a crazy life we're leading
So you gotta keep on breathing
But you never stop believing

Well your long days over so come on over here tonight
We can roll one over let that sweet leef ease your mind
We can roll one over let that sweet leef ease your mind
