

Truth

Pepper

You're going to drown in the truth
Can't keep swimming in lies
Because when you practice to deceive
You'll be swept out to sea and realize
That you

Got to get, got to get, got to get
Got to get back, on shore
Making my way to solid ground
Got to get, got to get, got to get
Got to get back, on shore
Making my way to solid ground

In a town, where people don't stop
Promises, that always get dropped
So don't believe in the thief
Who says he's blind
Because we know
Nothing's wrong with his eyes
He sees your gold and he's hypnotized
So don't believe in the thief
Who says he's on your side

And now you see how they run
You watch them go
And when the light comes on
The truth be told
And when it all comes down
You will know, you will know who

Is going to drown in the truth
Can't keep swimming in lies
Because when you practice to deceive
You'll be swept out to sea and realize
That you

Got to get, got to get, got to get
Got to get back, on shore
Making my way to solid ground
Got to get, got to get, got to get
Got to get back, on shore
Making my way to solid ground

And there's so much they tell you
Like this is where you want to be
And this town it loves you
Until you're out of money
So now you see how they run
You watch them go
And when the light comes on
And there they go
And when it all comes down
You will know, you will know who

Is going to drown in the truth
Can't keep swimming in lies
When you practice to deceive

You'll be swept out to sea and realize
That you

Got to get, got to get, got to get
Got to get back, on shore
Making my way to solid ground
Got to get, got to get, got to get
Got to get back, on shore

You're going to drown in the truth
Can't keep swimming in lies
Because when you practice to deceive
You'll be swept out to sea and realize
That you

Got to get, got to get, got to get
Got to get back, on shore
Making my way to solid ground
Got to get, got to get, got to get
Got to get back, on shore

Got to get, got to get, got to get
Got to get back, on shore
Making my way to solid ground
Got to get, got to get, got to get
Got to get back, on shore
