

## Work That We Do

Pepper

Well we realized so long long ago and I bet you  
That we've seen it all, the lies won't get you  
I've got 14 miles to go  
I've got rhythm, common sense, I've got the soul  
But I won't wanna come around our love  
So why

If you are rich I'm gonna hang you on the wall and Imma find you  
When I find you I'm gonna get your loving arms today

We fight to get  
We fight to get our weary arms to bed  
Real love something that I still hope  
People making their own places to go  
Now in 94 we're gonna lie some more  
In 1994 were gonna die some more  
Is it ever going to be the last show

It's going to be the last draw  
Boss too proud to make the cars that we drive  
Woman don't mind, I've got ample time  
They don't wonder why that they do

You're mine

Lover won't go, oh the love won't go  
Carry that heavy load  
It's Work That We Do  
Work that we do is work that we do
