

Lay Down Your Arms

Per Gessle

Babe, it feels like I've known you forever
You're a most peculiar girl
You seem to belong to a different world
And whatever you're thinkin' about me
Whatever you've heard around town
This time it's for real, the deal is all done
Lay down your arms right from the start
I'm out to make sure I'll capture your heart
Lay it all down
When my love is comin' around
Whatever you planned for this summer
Whatever you'll read in my palm
There's no lookin' back, babe, surrender your heart, yea yea ye
a
Lay down your arms right from the start
I'm out to make sure I'll capture your heart
Lay it all down
When my love is comin' around
Comin' around
Lay down your arms right from the start
I'm out to connect to capture your heart
Lay it all down
When my love is comin' around
Comin' around
