

# Stuck Here With Me

Per Gessle

You're stuck here with me  
Stuck here with me  
All night baby  
The reason you see  
The reason might be  
I'm lonely baby

I saw the lovelight in your eyes  
Like crazy fireworks  
The moon and the sun  
Melting into one

Where do you go  
Where do you go  
All night baby  
The feeling's all low  
All night baby

I need the lovelight in your eyes  
Like crazy fireworks  
The stars and the sun  
Melting into one

I want the lovelight in your eyes  
The heartshaped carnival  
Of flowers and fun  
Melting into one

Na na-na na-na na-na
