

Love Me All the Way

Percy Sledge

Take my cold hands and warm them again
Drive out the cold
The way you used to do
When My hands were the only ones
You cared to hold

Tell me my love not to worry
You're back in my world to stay yeah
Darling don't halfway love me
But love me all the way

Warm my cold lips
With the touch of a flame
Your sweet kiss can bring
The way you kissed me dear
When you loved me
To get the many many...yeah

Now say you're mine
With all of your heart
And I'll believe what you say yeah
Darling don't halfway love me
But love me all the way
