

Let Me Know

Perfume

If you had a small prize
Why'd you forget? You haven't touched it
Before you know it, the air that'd encircled you
It's a mass of sweet toxicity. Inhale and you're finished
Over time the wind blows, even if you go with the flow
You don't want to get washed away, even if you row your paddle
Somehow, the anticipation is seriously in the way
You've been dreaming in an amusement park

Take back the places only natural spirits can reach
I'll wait forever if you were always yourself from now on

Come on, let me know

123 Tell me let me know
123 Tell me let me know

A manual of a dream is nothing but lies
Don't you be deceived. Surely, no one's going to mention it
Don't tell anyone, because you're about to be somebody. Believe
in yourself

Take back the places only natural spirits can reach
I'll wait forever if you were always yourself from now on
Come on, let me know

123 Tell me let me know
123 Tell me let me know

Let me know
Let me know
