

## Miss U

Perkele

When I look up I realize it was a dream  
It felt so real that you were here  
And I could hear you speak to me

Oh how I wish that I could meet you once again  
I miss you so, with all my heart  
I would have so much to tell you

I miss you so, it hurts so much  
My heart is falling apart  
I wish you knew, that I love you  
From the bottom of my heart

I miss you so, it hurts so much  
My heart is falling apart  
I wish you knew, that I love you  
From the bottom of my heart

When I look back I understand what I have lost  
There's emptiness in my chest  
Like something's missing in me

I hope you hear my voice, it's from my heart to you  
It might be too late, I got to try  
I got nothing to lose

6x  
I miss you so, it hurts so much  
My heart is falling apart  
I wish you knew, that I love you  
From the bottom of my heart
