

# Someday

Perkele

It feels like I'm fighting all alone  
And no one out there hears my voice  
Am I hollow, Am I mute  
Do I exists or am I dead

I know someday  
Someone will hear my voice  
And I will never be alone again  
I know someday  
Someone will hear my voice  
And I will never be alone again

It feels like no one understands  
And no one out there really cares  
Can't your hear, are you blind  
Am I fighting all in vain

I know someday  
Someone will hear my voice  
And I will never be alone again  
I know someday  
Someone will hear my voice  
And I will never be alone again

I know someday  
Someone will hear my voice  
And I will never be alone again  
I know someday  
Someone will hear my voice  
And I will never be alone again
