

## Me, Myself & You

Perrie

You're darkest part of me  
The reason why it's hard to breathe  
Stealin' words before I speak, mm-mm  
You love to show up unannounced  
Take my hand up to the clouds  
Then you're the one to talk me down  
And back again

I keep running in circles, there's never an end  
Why does it hurt if it's all in my head?

It's always been me, myself and you  
A piece of me that I don't get to choose  
You're in every lonely night  
I can't get you off my mind  
It's always been me, myself and you  
No matter how I try to cut you loose  
You're always holdin' on too tight, I

I guess you're a part of me for life

I can never pull away  
Emotion in a tidal wave  
You wrap my heart in heavy chains  
And hold me down

I keep running in circles, will this ever end?  
Why does it hurt if it's all in my head?

It's always been me, myself and you  
A piece of me that I don't get to choose  
You're in every lonely night  
I can't get you off my mind  
It's always been me, myself and you  
No matter how I try to cut you loose  
You're always holdin' on too tight, I

I guess you're a part of me for life  
Life, for life  
Always gon' be me, myself and my  
My mind, my mind
