

Put You First

Perrie

A different kind of love
Nothing that's quite as tough
No war or storm or fuss
Could ever get caught between us
You make me feel so strong
Like nothing could go wrong
When I'm so down on luck
I'm holding you, but you lift me up

You know I'll be there
Any time you need, just tell me where
So darling, don't you be scared
I'll fight off the monsters in your head
And I'll wrap my arms around you
Protect you from the world
I'll be moving mountains with the power of your love
I'll be there
For better and for worse
I'll always put you first

You're like the sweetest song
Our Ax forever long
I'll take you in my heart
Whatever road that I'm on

You know I'll be there
Any time you need, just tell me where
So darling, don't you be scared
I'll fight off the monsters in your head
And I'll wrap my arms around you
Protect you from the world
I'll be moving mountains with the power of your love
I'll be there
For better and for worse
I'll always put you first

I love you
I love you
I'll always put you first
There, mama
Can you say, "Mama"
La-la-la-la-la
I'll always put you first
