

## California

Perry Blake

A new life is what we need  
A new life is out of here  
Little moments, don't you know ?  
Maybe go to California, where it's warm  
Get some work, I can see  
You and I breaking waves  
In the sunshine

Don't start slipping away  
Don't start slipping away

No sad refrains  
They belong to yesterday

Don't start slipping away  
Don't start slipping away
