

# Together

Perry Como

I know the feeling of being all alone  
I never had anybody I could call my own

But when we're together  
It's just like a dream (together)  
Like peaches and cream (together)  
It's easy to see it's good for you and for me  
When we get together  
The sun seems to shine (forever)  
And if you'll be mine (we'll never)  
Be lonely again cause we belong together

Hey girl, I know if we'll both give love a try  
It will grow stronger with every day that passes by

Cause when we're together  
It's just like a dream (together)  
Like peaches and cream (together)  
It's easy to see it's good for you and for me  
When we get together  
The sun seems to shine (forever)  
And if you'll be mine (we'll never)  
Be lonely again cause we belong together

Now that you know how I feel it's up to you  
We can live cheaper if we are one instead of two

We will be together  
It's just like a dream (together)  
Like peaches and cream (together)  
It's easy to see it's good for you and for me  
When we get (together)  
(Together)  
(Together)  
(Cause we belong together)

Ooh (together)  
The sun seems to shine (forever)  
And you will be mine and never  
Be lonely again cause we belong together

Together!
