Shekina

Perry Farrell

Come down, come down Shekina
We'll engage evenually
I will tick and tock for you
Shake your mother hips for me
Outside heaven drizzles
Grows us up a field of apples

As you like it
That's how I like it

Tell me, tell me what are you thinking?
I like the sound of your voice
Whisper to me what you're after
I'll try and get it for you
That tiger's tooth when you smile
And some things I can't tell you

As you like it, Havah
It's how I like it, Havah

Dreaming
I'm dreaming
There's nobody here but us
Ignited
When we ignite
And nobody stands between us

You want to be caught; I'll catch you
What you want, I want too
As you like it, I like too

Time together is breezy
I'm without you thin as the air
Missing; a bass from a drum
Singer wants a harmony
I'll put my soul inside you
Put me there and let me grow

As you like it, Havah
It's how I like it

Come down, come down Shekina
We'll engage eventually
