

## Anabasis (Pt.2)

Persefone

Arms raised, breathe in  
Calm the mind  
Open the eye  
Breathe out

Feel the blood pulse  
Life is pumping, I'm alive  
I am now one within the light  
Wake up, rise  
Fear no more  
Complete, I've crossed the stream of life

I'm out of the cave  
Eyes wide open  
Bright white  
Meditating  
Levitating  
Elevating

Out of the body  
In a different dimension  
Going beyond the illusion  
Vibrating with all forms of life  
Reaching the first spark  
All the flames inside

Breathe life in  
I'm fulfilled  
Embrace my soul  
Feel the pulse  
I'm a river, I'm the sky  
In this state of grace  
All the elements (Are aligned)

Ashes drawing the path with blood  
Going beyond the mind, fearless  
The fire has wiped out all the things that I was  
Born again  
I can breathe and feel  
A vessel of pure energy

Feeling the presence that surrounds us  
Closing the eye  
Everything is in balance  
The universal flame  
My own Anabasis  
My spiritual migration

I'm complete  
Face the highest truth  
I'm above  
Feel the flames inside  
A whole new me  
Blood, love, mind, flesh  
Now I can see
