

Katabasis

Persefone

Let me dance amid the flames

Aching
Blinded by desire
My light expires
My heart dies

Drowning
Forced to look inside
Free falling
Facing myself
No faced mindless

I am lost, so confused
Trying to reshape
The architecture of the I
Closing my eye
Below
I can hear a sacred voice call

The walls are closing in
I can feel I'm trapped in here
Consume my soul
My journey starts now

I'm slowly turning into ashes
Still so far but getting close
I am living my own
Katabasis

Bring me down amid the flames
Shatter my whole being
Higher self
