

Firestorm

Pertness

Destruction of my soul
My will is dead
Driven to the breaking point
There's no escape

The seed of evil dwells
Dwells in my heart
Waiting for the final sign
I'll follow blind

I'll fly to heaven - you'll die
Get swallowed by the flames
Like an endless lightning crashes
The whole world will explode - firestorm

The final act begins
I'm not alone
I'm a slave to evil creed
I'm hypnotized

My tears are falling down
into the sky
One blink of death and all
and all has gone

I'll fly to heaven - you'll die
Get swallowed by the flames
Like an endless lightning crashes
The whole world will explode - firestorm
